Friends,

For nearly a century, The Dallas Foundation has served as a bridge between our donors and the organizations and issues they are most passionate about. And we know that many of you rely on our team to introduce you to new opportunities to address Dallas' most pressing issues and move our community forward.

Our team of experts has put together this giving guide to highlight The Dallas Foundation's 2021 grantees that align with our strategic priority to provide a Strong and Healthy Start in life, as well as a select number of collaborative giving opportunities hosted by the Foundation that allow you to co-invest alongside like-minded donors, leveraging the collective impact of giving together.

We realize this is not an exhaustive list of organizations helping to move our community closer to ensuring that all our neighbors can reach their full potential.

Throughout the year, we provide many opportunities for donors to learn, to collaborate, and to partner with us to engage in meaningful giving. Our team's knowledge and experience as well as our deep relationships with nonprofit and civic leaders in Dallas, positions us to curate individual recommendations and help you explore the landscape of options. I invite you to start the conversation today.

We look forward to helping you explore the many ways to impactfully invest your philanthropic resources and hope this guide inspires you, creates community connections, and fulfills your giving spirit.

My best,

Matthew Randazzo
President & CEO
